

SAMPLE NAME

AI & Data Science Student | Aspiring Data Scientist

SUMMARY

AI & Data Science student with an interest in Data Science, Machine Learning, and Natural Language Processing. Building practical projects using Python, data analysis, machine learning, and NLP while developing strong problem-solving skills.

EDUCATION

Bachelor of Vocation in Artificial Intelligence & Data Science

University / College Name | 2024 – Present

TECHNICAL SKILLS

Programming: Python, SQL

Data Science: NumPy, Pandas, Matplotlib, Seaborn

Machine Learning: Scikit-learn, Regression, Classification, Model Evaluation

NLP: Text Preprocessing, TF-IDF, Sentiment Analysis

Tools: Jupyter Notebook, Git, GitHub

PROJECTS

Student Performance Analysis

Python | Pandas | Matplotlib | Seaborn

- Cleaned and analyzed student performance data.
- Performed exploratory data analysis to identify patterns and relationships.
- Created visualizations to communicate key findings.

NLP Text Classification

Python | NLTK | Scikit-learn | TF-IDF

- Built an NLP-based text classification project.
- Applied text preprocessing and TF-IDF feature extraction.
- Trained and evaluated a machine learning classification model.

Machine Learning Prediction Project

Python | Pandas | Scikit-learn

- Prepared a dataset for machine learning.
- Compared model performance using suitable evaluation metrics.
- Documented the approach, results, and key learnings.

CERTIFICATIONS

- Certification Name | Platform
- Certification Name | Platform

ACHIEVEMENTS & ACTIVITIES

- Built academic and personal projects related to AI and Data Science.
- Practiced data analysis, machine learning, and NLP through hands-on implementation.
- Used Git and GitHub to document and showcase projects.

INTERESTS

Data Science • Machine Learning • Natural Language Processing • Artificial Intelligence • Data Analytics
